EXPERIENCES

Work experiences

eZ Systems

SEPTEMBER 2009 → JANUARY 2010

Working with eZ Systems on an image editor plug-in to be integrated in the next eZ Publish release.

→ PHP - eZ Publish CMS - jQuery...

Web developer intern

SEPTEMBER 2008 → JANUARY 2009

I developed a web service called Uniprime 2 to help researchers design universal primers. Our work has been published in Nucleic Acids Research 2009.

→ Web design - PHP - Perl

LTD 12 WORKSHOP

JULY → AUGUST 2007

I designed the books, posters and cards for this event. During the conference, I welcomed researchers and performed general technical assistance.

→ Print design - Communication skills

Projects

Jobs on Rails

Ruby On Rails - jQuery - Web design

Jobs on Rails intends to provide users with the easiest and most flexible way to create their résumés online as well as a job board with an application manager to make job search easier.

MovieFindr

PHP Symfony - jQuery - Web design

List and talk about the movies you want to see. Search and import movies from IMDB (not published since this is not allowed by IMDB).
